Experience

Sensebite Pvt Ltd

June 2024 – November 2025

Roles and Responsibilities (E-Commerce Domain)

Pune

Full Stack Web Developer:

- Planned and built scalable and secure RESTful APIs using Spring Boot for e-commerce applications.
- Integrated Spring Boot backend with Thymeleaf frontend and MySQL database.
- Executed core e-commerce features including product listing, cart management, checkout, and order processing.
- Created and maintained MySQL database schemas with proper relationships using Spring Data JPA and Hibernate.
- Handled backend validation, exception handling, and application-level security.
- Collaborated with frontend team to integrate APIs and ensure smooth data flow between UI and backend.
- Improved database queries to enhance application performance and scalability.

AimCab Pvt Ltd

August 2023 – March 2024

Roles and Responsibilities:

Pune

Full Stack Web Developer:

- Managed domain and hosting, and deployed Spring Boot applications on live servers.
- Created REST APIs and linked them with HTML, CSS, and Bootstrap frontend.
- Handled authentication, backend performance tuning, and application security.
- Streamlined database queries to improve application performance and scalability.

Projects

CraftsBite – Online E-Commerce Website | Java, Spring Boot, MySQL, Thymeleaf

- Led the development of an online product-selling platform with user authentication, cart, and checkout functionality.
- Applied product catalog management with category-wise listing, search, and filter logic.
- Built secure REST APIs to manage product listings, customer data, cart, and order processing.
- Utilized MySQL for data modeling, relational mappings, and streamlined query handling using Spring Data JPA.
- Enforced authentication and authorization using Spring Security.
- Secured REST APIs using JWT (JSON Web Token) based authentication.
- Integrated Razorpay payment gateway for secure online payments and order confirmation.

Admin Panel – Product & User Management System | Java, Spring Boot, MySQL, React

- Established a complete admin dashboard for managing products, categories, users, and orders.

- Enforced secure authentication and role-based access control for admin users.
- Generated CRUD functionality for product listings, price updates, and stock management.
- Connected React frontend with Spring Boot backend using REST APIs and Axios for real-time data updates.
- Improved database queries to enhance application performance and scalability..

Personal Portfolio Website | *HTML, CSS, JavaScript*

- Created a personal portfolio website to showcase projects, skills, and contact information.
- Developed responsive layouts using HTML, CSS, and JavaScript to support mobile devices.
- Added interactive UI components and smooth navigation to improve user experience.
- Integrated a WhatsApp contact button for instant communication.
- Deployed the website on Netlify for public access and performance optimization.
- Website: adinathpawar-work.netlify.app

Education

Master of Computer Application (MCA)

2023 – 2025

Shri V. D. Deshmukh College of MCA

- Passout Year: 2025
- Percentage: 74%

Certifications

- Full Stack Development – QSpiders (June 6, 2022)
