Professional Summary

Laravel Developer with hands-on experience in building scalable web applications using PHP, Laravel, MySQL, JavaScript, AJAX, and REST APIs. Skilled in developing admin panels, payment gateway integrations, authentication systems, and dynamic web features. Passionate about writing clean code, optimizing performance, and delivering user-friendly solutions.

Education

Bachelor's Degree in Information Technology (July 2019 – Jun 2023)

SR Institute of Management and Technology Lucknow

XIIth (PCM) (July 2018 – Jul 2019)

NIC Patherwa kushinagar Gorakhpur

Experience

TSSG-TECH (Kalkaji, Delhi) | Nov 2025 - Present now

Backend Developer

- Currently working on CRM-based web applications and REST API development using PHP, Laravel, AJAX, and MySQL. Responsible for developing backend modules, API endpoints, authentication systems, and database management features while collaborating with frontend and backend teams to build scalable, high-performance business solutions along with handling debugging, third-party API integrations, Git version control, and application optimization.

SK Info Techies (Vaishali) | May 2025 - Oct 2025

Junior Software Developer

- Developed and maintained scalable web applications using PHP, Laravel, AJAX, and MySQL. Integrated Razorpay payment gateway with customized checkout workflows and optimized application performance and user experience through efficient coding practices, debugging, REST API integrations, database management, and Git-based version control.

Bhoomi Techzone Pvt. Ltd. (Noida Sector 63) | May 2024 – April 2025

PHP Developer

- Designed and maintained dynamic web applications for various business requirements using PHP, MySQL, and frontend technologies. Implemented and tested secure Razorpay payment gateway integrations with custom checkout systems while also handling debugging, API integrations, database operations, and version control using Git to ensure smooth application performance and user experience.

DigiCoders Technologies Pvt. Ltd.(Lucknow) | Sep 2023 – April 2024

Web Development Apprentice Trainee

- Completed 6 months of industrial training in Web Development, where I worked on PHP, MySQL, HTML, CSS, JavaScript, and Laravel while gaining hands-on experience in frontend and backend development, database management, and real-time project development.

Projects

SDRC Printer

- In this website, we have used API integration, and the backend is built using PHP and MySQL. And in this, we are generating the vehicle's RC (Registration Certificate).

WCAC (Laravel E-commerce Website)

- This is an e-commerce website that uses the Razorpay payment gateway.
- The backend is built with Core PHP and a MySQL database.

Others Project
