CAREER OBJECTIVES:-

To gain the position of plastic engineer -moulding with a view to make extensive contributions from my experience in plastic processing and manufacturing gained in renowned organisations.

SUMMARY OF QUALIFICATIONS:-

- *Excellent experience in handling of Eletronica, Haitain, and china make m/cs & MIR Thermoset injection moulding m/cs, compression and Transfer moulding m/cs.*
- *Worked on 2plate, 3plate, family moulds, core operated unscrewing multi cavity with and without IMC, engineering tools.*
- *Processed PC, ABS, PVC, PP, HIPS, etc..*
- *In-depth knowledge of the formulation, material science, and equipment of plastic production.*
- *Solid knowledge of plastic injection moulding operation.*
- *Possess strong mechanical aptitude with good analytical and problem solving skills.*

ACHIEVEMENTS :-

1. *In a 3pc powder cap there was problem with gap in caps after assembling. 2 Months production held for quality issue. Then it was solved by me in assembling of 3pcs by bending middle component and insructed assembly people to convert into ok parts.*
2. *opening force low problem in a shampoo cap part resolved by analysing Slip Additive. mixing composition.*
3. *weighing problems of produced goods & despatching inequalities sorted out many times and awareness of weighing finished goods, provided to the packing people.*
4. *white cracks at ribs/problem in actuator component solved by improving heat removal from core and there by resulted component free ejection/ there by white marks eliminated.*
5. *In thermoset injection moulding a suction device is incorporated to suck the hot air during injection phase to avoid burning and porous problems in MCB cover and bottom. components.*
6. *Component weight issues solved many a times.*

PROFESSIONAL HISTORY:

Organisation: ILPEA PARAMOUNT LTD.at FARIDABAD

DEPARTMENT: INJECTION MOULDING

Designation: PRODUCTION (SUPERVISOR)

Duration: 2012-2016

- Perform investigation and resolve work in process (WIP) problems.
- Handle the tasks of recommending and implementing improvements and modifications in sequence of operations, equipment utilization, and related matters

Organisation: MOHTA PLASTIC PVT LTD FARIDABAD

DEPARTMENT: INJECTION MOULDING

Duration: 2019-2024

- Presentation of production, quality and safety performance reports to the management team
- Plan/schedule for operator training and maintain the records of effectiveness and multiskill, monitor the manpower utilization.
- Performance evaluation and progress of employees.
- Processed commodity and engineering plastic raw materials.
- Responsible for quality productivity, down time control, rejection control.
