INFOSYS Hinjewadi phase2 Pune *as Senior System Engineer from 18-Aug-2022 to 07-Feb-2024*

- Working in Finacle Universal Banking in Infosys , it is banking domain project.
- My role inside the project is to update the code based on the requirement inside the Java File.
- Need To test the file also whether the source code managing the data or not.
- If everything is fine then we need to raise jira for patch id generation. Same patch id given to the deployment team to deploy the files on the server

TCS from 11-02-2022 to 25-06-2022 .

I worked in TCS but my Payroll Company is Future Focus
My role inside the project is to migrate the code from the
backend as the project was built in Spring- Boot framework

I have to do the code changes.

- ☐ I have to test whether the code was running fine or not
from our source code up-to the DB.
